

OASP Biometric Electronic Registration System

A Biometric Electronic Recognition system is utilised at Oasis Academy Shirley Park, whereby a four point electronic mapping is taken and stored of each student’s Index finger. This allows us to make the best use of efficient systems such as cashless catering, library software and print and copy control. Biometric Technology is widely utilised successfully across many schools nationally.

We have found this system promotes for the following benefits:

- Improved security for handling lunch/snack transactions in the Academy Cafeteria
- Reduction in queuing time and faster food delivery in the Cafeteria
- Reduction in opportunities for bullying as monies credited to a child’s account cannot be utilised for use by another student

In order for your child to use the Biometric system, we require one parent/carer to consent by signature on the attached form and returned to Student Reception. It is essential 100% of students utilise the Biometric system.

Oasis Academy Shirley Park comply at all times with Data Protection Act and with the provisions of the Protection of Freedoms Act 2012 regarding the use of Biometric data. To reassure, this system creates a mapping of your child’s index finger and not a fingerprint. **Once your child ceases to use the biometric recognition system, his/her biometric information will be securely and permanently deleted by the Academy.**

If you would like further information or the opportunity to discuss Biometrics further, please feel free to contact our Attendance or Student Services Officers within the Academy office.

CONSENT FOR THE USE OF BIOMETRIC INFORMATION

I give consent to the Academy for the Biometric mapping of my child’s Index finger to be used by Oasis Academy Shirley Park for use as part of a recognition system as described above.

I understand I can withdraw this consent at any time in writing.
