

Technology in everyday life

Reading worksheet

2.2 F La tecnología portátil

1 Read the text and answer the questions. Write the correct letter in the box.

Los beneficios de la tecnología móvil en el instituto

- Es la responsabilidad de los educadores preparar a los alumnos para el futuro y por eso hay que incorporar la tecnología móvil a la clase. Utilizar los aparatos móviles será una parte esencial de su vida diaria como adultos y también los usarán en su trabajo y carrera.
- Ya no buscamos información en viejos libros y enciclopedias. Tener aparatos móviles en la clase nos da acceso inmediato a las últimas noticias, información y estadísticas, y asegura que las respuestas que encontramos contengan la información más reciente.
- A los jóvenes les encanta la tecnología y se sentirán motivados a continuar aprendiendo fuera de clase. Si tienen apps educativos y libros digitales en sus móviles, pueden estudiar y aprender cuando y donde quieran.

1 What is the duty of teachers?

- A to prepare pupils for exams
 B to ensure students are ready for whatever lies ahead
 C to educate children to use computers

2 Why is it important to get used to using mobile devices?
